

Smart Gateways for Wireless Connectivity

Monitored
Connectivity

Fast, Secure
and Reliable

Place Anywhere
Any Location

Failover
Redundancy

Product Solution:

BEC MX-200 Industrial LTE Router

Dual Gigabit Ethernet, RS-232
Serial Interface, Optional GPS,
Enterprise Software

Cloud-Based
LTE Remote Management System

Cloud Management

Real-time monitoring,
management and control.
Designed to simplify device
access, streamline and speed
up deployment, lower support
expenses.
